Question was asked why the Fire Department bills listed separately. Can a separate line be added to show amounts paid for Fire Department? All items are paid out of the general fund for the department just as every other building. In the year end audit, the total mounts for each item can be reviewed.

There was concern raised that there was no approval for council to take over the Fire Department bills. Once issue was brought up it was handled, and the Borough is now paying since the Department is leased to the Borough.

First budget meeting to review 2020 budget will be held the first week of October, hoping to have a rough draft for the October Council Meeting and a Proposed budget by November Council Meeting.
